EDUCATION

Western Governors University   Salt Lake City, UT
Bachelor of Science in Software Engineering
- Relevant Coursework: Software Security and Testing, Python Programming, Javascript Programming, Backend Programming, Software Design and Quality Assurance, Cloud Foundations, Advanced Data Management

Fullstack Academy   New York City, NY
Certificate in Web Development
- Software Engineering immersive that teaches computer science concepts, and project development utilizing agile.

EXPERIENCE

Sortation Associate   Robbinsville, NJ
Amazon   *Nov. 2021 – Present*
- Collaborated with coworkers in a fast-paced environment to unload trucks, ensuring timely delivery of packages.
- Exceeded Amazon's work quota consistently by an average of 40%, recognized as a top performer 3 times for outstanding contributions to daily operations.

VOLUNTEERING

Computer Tech   Pennington, NJ
Pennington AG Church   *Nov 2017 – Present*
- Collaborated closely with the production team to deliver seamless technical presentations, managing audio-visual equipment and resolving technical issues promptly.

PROJECTS

MealFinder | *React, Redux, Node, Express, Material-UI, Spoontacular API*
- Spearheaded the development of a full-stack meal recommendation app to help people unsure of what their next meal is.
- Designed and implemented features such as a search bar, randomizer, and cuisine lists to enhance recipe discovery.
- Utilized the Spoontacular API to provide recipe data to users, enhancing the application's functionality.

Vacays | *Java, Spring Boot, Typescript, Angular, MySQL*
- Spearheaded the backend development of a vacation shopping application, driving the implementation of the applications purchasing functionality.
- Created entities, repositories, controllers, and services based on UML Diagrams to ensure accurate system modeling.
- Ensured proper MySQL database setup and integration on AWS RDS, enhancing data management and system reliability.

Gary's Pcs | *Java, Spring Boot, Junit, Thymeleaf, Docker, Hibernate, H2 Database*
- Developed and containerized a product inventory management application with Docker, optimizing resource utilization.
- Automated deployment using CI/CD pipelines, achieving a 30% reduction in deployment time.
- Implemented automated testing and validation using JUnit to optimize product inventory.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, Typescript, HTML5, CSS3
Frameworks: React, Redux, Angular, Node.js, Express, Spring Boot, Flask
Databases: PostgreSQL, MySQL, MongoDB(NoSQL), AWS RDS
Certifications: AWS Certified Cloud Practioner, ITIL v4 Foundation, CompTIA Project+
Other: RESTful APIs, MVC, JUnit, Docker, Object Oriented Programming
